

# NETC@RDS for e-EHIC and TEN4Health

## Workshop

Paris

13<sup>th</sup> November 2007

<b>Time</b>	13 <sup>th</sup> November 2007 14:00 – 18:00 hrs
<b>Location &amp; Venue</b>	CNPS Centre National des Professions de Santé (Health Professional National Association) 22, avenue de VILLIERS – 75849 PARIS CEDEX 17
<b>Chair</b>	Noël Nader, NETC@RDS For e-EHIC Project Coordinator
<b>Background and Objectives</b>	<p>It was agreed between the European Commission and the two project consortia - TEN4Health and NETC@RDS For e-EHIC- that there will be two common workshops: the first one will be organised by TEN4Health inviting NETC@RDS shortly after the project kick-off, The second one organised by NETC@RDS just before TEN4Health completion which time table corresponds approximately to NETC@RDS For e-EHIC Phase B project mid-term. The common workshops will have the following specific objectives;</p> <ul style="list-style-type: none"> <li>o WS1:..stablish the common scope.</li> <li>o WS2: share and review achievements, results and lessons learned from both projects consortia.</li> </ul> <p>However, due to practical reasons both consortia agreed to swap the workshop organisation: i.e. WS1 will be organised by the NETC@RDS For e-EHIC consortium whilst WS2 will be organised by the TEN4Health consortium.</p> <p>The aim of WS1 is to clarify the objectives and work plans of both projects and to discuss the differences and the similarities. In particular it will focus on common issues. The invitation is addressed to partners from both consortia (concerning participants from the NETC@RDS For the e-EHIC consortium the participant list will include those partners involved in both projects as well as those Work Package Leaders concerned by common activities and tasks between the two projects (e.g. definition of common XML data structure and security policy, ...) <sup>1</sup>.</p>

<sup>1</sup> For more details see the list proposed within the e-mail sent by NN to TEN4Health people 08/10/07).
